SECTION III. ADMISSIONS

Program Admission Requirements

Applicants must comply with University procedures and meet University standards for admission. Applicants must submit to the Office of Research and Graduate Studies a Graduate Admission Application. Also required are two letters of recommendation from persons able to evaluate the applicant’s professional or academic performance, a resume or curriculum vitae, and other information that may have influenced the applicant’s decision to pursue graduate study or deemed important to individual or career goals. Applicants are required to submit Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) scores prior to admission. Generally, GMAT and GRE scores will not be accepted if over five years old. The GMAT or GRE is not required of those who earned a graduate degree from a regionally accredited university.

Admission decisions are made on the basis of undergraduate performance, GMAT or GRE scores, experience, and other indicators of the ability to pursue graduate study successfully. To be accepted in the graduate program, in addition to other requirements, applicants must be in good standing at the college or university they previously attended. Official notification of the admission decision is issued by the Office of the Dean of the College of Business and is sent directly to the applicant. The College of Business does not have “conditional” or “non-degree seeking” graduate admission classifications. Normally, no credit will be applied toward a master’s degree for graduate classes taken prior to acceptance into a graduate degree program in business.
