The College is committed to excellence in instruction, research, scholarship and creative activity, service, a concern for students, and the integrity of the institution. As such, all full-time faculty, as appropriate to the nature of appointment, are expected to meet certain expectations described in University Procedure 12.01.99.C0.03 Responsibilities of Full-Time Faculty Members or University Procedure 12.99.99.C0.02 Responsibilities of Part-Time Faculty Members.

While these responsibilities provide the foundation of good instruction, research, scholarship and creative activity, service and professionalism, they do not alone qualify one for tenure, promotion, or renewal of contract. Additional responsibilities may be specified in other College policies. The Dean, Associate Dean, or a faculty member's Department Chair may assign additional responsibilities.
